

HAKEEM SARDAR

AI AUTOMATION ENGINEER & BACKEND DEVELOPER

+92 355 4503833 • hakeemsardar7@gmail.com • Gilgit, Pakistan

PROFESSIONAL SUMMARY

AI Automation Engineer and Backend Developer with 6+ years of software development experience, including full-time work in backend engineering and database architecture. Builds production-ready APIs, database systems, AI agents, automation platforms, and data pipelines. Strong hands-on experience with Python, FastAPI, Node.js, Express, PostgreSQL, n8n, Make.com, OpenAI, Claude, RAG, REST APIs, GraphQL, webhooks, Docker, and CI/CD. Combines backend engineering depth with AI automation to build reliable systems for real business operations.

TECHNICAL SKILLS

Languages	Python, JavaScript
Backend	Node.js, Express.js, FastAPI, REST APIs, GraphQL, OpenAPI, Webhooks, Authentication
Databases	PostgreSQL, Supabase, Firebase, Airtable, Database Architecture, Schema Design, Query Optimization
AI / Automation	AI Agents, n8n, Make.com, OpenAI API, Claude, LangChain, RAG, Prompt Engineering
DevOps	Docker, GitHub Actions, CI/CD, Logging, Monitoring, Retry & Failover Systems
Other	API Integration, Browser Automation, Web Scraping, CRM Automation, Business Process Automation, SaaS Development

PROFESSIONAL EXPERIENCE

AI Automation Specialist | uConnect Technologies

Jan 2022 – Jul 2025

- Designed scalable AI automation pipelines using n8n, Make.com, Zapier, and OpenAI APIs.
- Integrated LLMs into business tools for intelligent processing, summarization, classification, and automated decision workflows.
- Automated CRM, SaaS, and internal operations, reducing manual work by approximately 80%.
- Built RAG pipelines, prompt chains, smart triggers, and webhook-based automations using Supabase and Firebase.
- Improved automation reliability with OAuth-secured APIs, structured logging, retries, and failover handling.

Backend Engineer & Database Architect | Quohr / BAS

Full-time

- Worked full-time on backend engineering and database architecture for production HR and attendance applications.
- Designed and maintained backend services and database structures supporting application workflows and business operations.
- Worked on secure API communication, data validation, authentication, and reliable integration between backend services and client applications.
- Contributed to database design and backend performance, with focus on maintainability, reliability, and scalable application architecture.

Backend Engineer & Database Architect | Gilgit App

Full-time

- Worked full-time as a backend engineer and database architect on production application systems.
- Developed secure REST APIs and GraphQL endpoints using Node.js, Express, and PostgreSQL.
- Designed database schemas and data relationships and optimized backend queries for performance and scalability.
- Implemented real-time systems for order tracking and data synchronization.
- Deployed containerized backend services with Docker and maintained CI/CD pipelines using GitHub Actions.
- Applied test-driven development and code review practices to improve reliability and maintainability.

SELECTED PROJECTS

AI Market Intelligence & Trading Signal Platform — Built an AI automation platform using n8n, Airtable, API integrations, data pipelines, news aggregation, web scraping, and LLM analysis to monitor global geopolitical, financial, and economic events and automatically generate trading signals for prediction markets.

Agentic Booking System — Built an AI-assisted booking workflow integrating n8n, Google Calendar API, PostgreSQL, real-time availability checks, webhooks, and notifications to prevent double bookings.

AI Email Triage Agent — Created an AI email processing system using Claude, n8n, Microsoft Teams, and messaging automation to classify, summarize, and route incoming messages.

Voice-Activated Task Management System — Built hands-free task creation and team notification workflows using voice input and AI automation.

EDUCATION

Bachelor of Science in Computer Science | Karakoram International University | 2017 – 2021

CERTIFICATIONS

- Master AI Agents: Automate Calls with AI and No-Code — Udemy, Jan 2025
- n8n Workflow Automation Specialist — Codekeeper, Nov 2024
